General and Revenue Secretariat. | Judl File No 326 of 1927

Serial No.	
3	Letter no 10045/29-28 dated 8/5/28 from the Chief Engineer of Mysore bringing to notice certain mistakes committed by Municipalities in matters connected with Sanitation, drainage lay out of extensions etc and suggesting the desirability of issuing a Circular for the guidance of Municipalities what they should take the advice of the Executive Engr. Sanitary and Town improvement works etc Instructions stating that lay out of extensions by the Local bodies should not be started without consulting the Executive Engr. Sanitary and Town planning Dept and the Consulting Architect and without the approval of Govt, to the plans and estimates, were recently issued to the Municipalities & Local Boards for communication by Government Order read above no d 5/26-53 and 326-27-2 of 10/5/28. Under the circumstances, if it is for orders whether a circular suggested by the Chief Engr is still necessary. If any fresh order issued may perhaps be sent to the Chief Engr Mysore for information.

L 5627

MYSORE PUBLIC WORKS DEPARTMENT,
CENTRAL OFFICE.

Dated Bangalore, 8/8/1928

me 326-27-3

From

JOHN BHORE, Esq., A.M.I.C.E.,
Chief Engineer of Mysore,
Bangalore.

To

R. Ranga Rao, Esq., B.A., B.L.,
General Secretary to the Government of Mysore,
Bangalore

Sir,

I have the honour to inform you that during the inspections of towns made recently by the Executive Engineer, Sanitary and Town Planning Division, he has brought to notice the glaring mistakes committed by the Municipalities in matters connected with sanitation, drainage, lay-out of extensions, etc. For instance, the Municipality of Tiptur in the Tumkur District has been executing a drainage work for over 8 years according to a scheme prepared by the Sanitary Department, and have spent nearly Rs 35,000/- on it from Municipal funds. It is no doubt creditable that the municipality is diverting their attention first to the drainage of the town. Unfortunately, the Municipality have not carried out the work properly for want of technical assistance and supervision The Municipality do not possess a Levelling Instrument to give proper gradients to the drains, and the Sanitary Inspector is the only guide on such matters The drains have been commenced at the wrong ends, instead of doing main drains first and then tackling the street drains They have been carrying out the work in a hap-hazard manner The drains are faulty in their gradients, and the foul water stagnates in some drains. Workmanship and materials are bad and in fact some drains have been laid above

road level-

2 At Mudgere in the Kadur District, the Executive Engineer says that two estimates for street drains for Rs 6,000/- were shown to -- him He was able to reduce the same to Rs 4,000/- with better ---- materials It may be stated here that the drain is proposed to be laid in front of the houses where no sewage flows instead of at the back where really foul water stagnates

Similarly, extension plans are not laid out properly-

3 All this is due to want of technical help and proper - - - - guidance The Municipalities do not seem to be aware of the ------ existence of the "Sanitary and Town Planning Division" which is ---- prepared to render every help, and guide them in the matter of - - -- Sanitary and Town Improvement Works-

4 I therefore suggest that a Circular may issue for the ------- guidance of Municipalities that they should take the advice of the - Executive Engineer, Sanitary and Town Planning Division in all - - - matters concerning Sanitary and Town Improvement Works, submit all - such estimates for scrutiny, take his advice in the matter of - - -- choosing sites for extension and lay-out thereof It would be also advisable for the Municipalities to obtain the services of a - - - - - subordinate of this Department to execute all such works under the - supervision of the Executive Engineer-

I have the honour to be
Sir,
Your most obedient servant,

7-5-28

CHIEF ENGINEER OF MYSORE
